ADVANCED FIRST AID WITH ADVANCED RESUSCITATION

This course is appropriate for people who work in high risk areas, act as first aiders to larger facilities or groups, or work in areas where help may be delayed or have difficulty accessing casualties.

The course covers a broad range of advanced skills and provides you with high level skills in management of large incidents, major trauma, sudden cardiac arrest, emotionally disturbed and drug affected casualties.

COURSE DURATION

St John offers the following options:

- 3 days (with pre-work) Students complete an e-learning module. Students that have completed HLTAID003 Provide First Aid within the previous 12 months may request an exemption from day one of the course.
- 2 days (with pre-work) Students complete a larger e-learning module. This option is for those who are confident and want to gain their certification quickly. It is appropriate for experienced first aiders and people who complete their training regularly.

CERTIFICATE

On successful completion of this course you will be issued a statement of attainment in:

- HLTAID001 Provide cardiopulmonary resuscitation
- HLTAID002 Provide basic emergency life support
- HLTAID003 Provide first aid
- HLTAID006 Provide advanced first aid
- HLTAID007 Provide advanced resuscitation

St John recommends, as per the *First Aid in the Workplace Code of Practice* and the Australian Resuscitation Council guidelines, that first aid skills are renewed every 3 years and resuscitation skills (HLTAID001/HLTAID007) are renewed every 12 months.

COURSE OUTLINE

This course covers:

- Major trauma management
- Triage
