ANAPHYLAXIS IN THE WORKPLACE

This course is designed to give you the confidence, knowledge and skills to recognise and manage an anaphylactic emergency including the use of the adrenaline auto-injector. This course applies to a wide range of settings where emergencies involving allergic reaction may occur.

COURSE DURATION

2 hours of training and assessment

CERTIFICATE

On successful completion of this course you will be issued a statement of attainment in:

- 22300VIC- Course in First Aid Management of Anaphylaxis

St John recommends, as per the *First Aid in the Workplace Code of Practice* and the Australian Resuscitation Council guidelines, that anaphylaxis skills are renewed every 12 months.

COURSE OUTLINE

This course covers:

- Anaphylaxis and allergy overview
- Anaphylaxis signs, symptoms and triggers
- Anaphylaxis medications and devices
- Anaphylaxis action plans
- Anaphylaxis risk management planning for the workplace
- Hands-on-practice adrenaline auto-injector administration (Epi-pen)
- Anaphylaxis first aid management

ASSESSMENT METHODS

A successful outcome for this statement of attainment will be determined by a range of different assessment methods including written assessment, observation of simulated and practical activities etc.

You will be required to demonstrate adult CPR on a manikin on the floor.

ENTRY REQUIREMENTS/PREREQUISITES

There are no entry requirements or prerequisites to undertake this training however it is recommended that students have current CPR training as well.
